Chat with Splunkers! **EKO** FY20

Chat Badge Qualifications

Jeffrey Swinehart: As a new Splunker—a great introduction into the culture and spirit of this great company. Kudos to all from Chicago. This put the SP into the LUNK!

Christopher Visaya: How long is going to be accessible?

Tanny Phillips: 10 Stars!!!! Survey Monkey gave me an error. Loved this event.

Chris Amidei: Try clicking "Exit" which does NOT exit you out but rather, sends you to the survey.

Ken Trough: Really great event! Thanks to Employee Communications and everyone else who was part of putting this together. Best EKO yet!

Clara Merriman: all the stations in the Santana Row office have been a blast - glad I was able to partake

The diagram illustrates the VMware Cloud on AWS SDDC architecture. It shows two availability zones connected by a dashed line. Each zone contains a 'Stretched Cluster' of vSphere hosts. A double-headed arrow indicates 'vSphere HA/DRS span across AZ'. Below the clusters are 'NSX logical networks' and a 'vSAN stretched cluster' spanning both zones.
